Internal installations?

This camera is perfect for a wide variety of installations, viewing down to 0.2 lux and provides excellent picture quality thanks to its high quality SONY Super HAD CCD Chip. (Additional lighting is required for true night-time operation). This camera would be recommended for areas that require a higher resolution image such as receptions and till areas.

External installations?

With additional lighting for night time recording, this camera will perform brilliantly, but must be mounted within our S605 external housing.
